# Accelerating Progress to End Global Hunger

In just a few short years, Feed the Future is demonstrating progress.

Photo by Olivier Asselin

## 4 million hectares. 7 million farmers. 12.5 million children.

Feed the Future is already delivering meaningful results like these that, when taken to scale, can be truly transformative for millions of people around the world.

How are we doing it? By doing development differently.

Find out how our new approach is accelerating progress toward a world without hunger.
